About the 2016 Central America Philanthropy Guide

Welcome to the 2016 Central America Philanthropy Guide, your resource for information on local NGOs in Central America funded by U.S. foundations and other donors.

The Guide includes information provided by U.S. foundations and other donors (for 2015, and 2016 when available) on grants to over 200 unique NGOs based in Central America. Collectively, the data represents over \$30 million in grants made to the region by 38 institutional donors.

The Guide is a product of the Central America Donors Forum. The Forum was founded by Seattle International Foundation in 2012. The event brings together leaders from business, philanthropy, NGOs, and government working to reduce poverty and increase philanthropy to the region. Visit www.cadonorsforum.org to learn more about the Forum.

We invite philanthropists and foundations working in Central America to support future editions of the Guide by sharing their grant-making information. For more information about the Guide, or to be included in the 2017 edition, please email info@seaif.org.
